HENDERSON'S

CALGARY

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

1965

Embracing the area of Greater Calgary

COVERING THE CITY OF CALGARY, THE TOWNS OF MIDNAPORE AND MONTGOMERY AND PARTS OF THE MUNICIPAL DISTRICTS OF ROCKY VIEW AND FOOTHILLS

Copyright, 1965, by Henderson Directories Ltd.

In the following list the numbered avenues and streets are arranged in numerical order, followed by the named avenues and streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. The profession or business of individuals or firms is given only at their respective places of business; to find occupations of others refer to Alphabetical List of Names.

The symbol ◎ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The symbol 🔔 preceding the names denotes houses having telephones.

(This section includes some listings reading "No Return." In each case the Publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First two personal calls were made by an enumerator, next, a post card was mailed and the telephone used when possible.)

(The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.)
